WALL ST. MARKET

MOST OF LEADING ISSUES SHOW SLIGHT ADVANCE.

Higher Prices Given Rail Stocks in Yesterday's Sensational Spurt Were Well Maintained Mar. pfd..... 95 at Opening Today-Reading Max.M.2d... 34 Sold Above One Hundred.

NEW YORK, March 24.-The stock market opened with desultory trading and slight price changes. Most the leading issues showed frac. M St L new ... 2314 tional advances with the exception of U. S. Steel, which was off 1/4 at 316%. Marine opened at 36%, up % Nev Cons..... 24% 24% Kennecott Copper 47%, up %: Central Leather 95, up 1/4; Marine preferred 94%, up %.

Advanced prices given rail stocks in yesterday's sensational spurt were well maintained. Reading sold above -100. New York Central was ubchanged at 99. Erie was strong, selling at 31½, up 3 points. There was little in the overnight news developments to affect mater.

ws developments to affect mater-It seems to be pretty well established that our participation in the war which everybody recognizes must come will be in a financial way. The state of general trade is excellent, according to the trade jour-nals and not unduly disturbed by re-cent events. The movement of the banks toward clearing their daily balances through the Federal Re-serve Bank is growing and appears to have the approval of the banking clearings this fraternity. Bank

week totaled \$5.536,528,072, an in-crease of 27.6 per cent. New York city clearings against 21.3 per cent. The railroad continued in active demand throughout and firm, with a few conspicious exceptions like Union Pacific which at no time sold as high as its previous closing. Read-ing later moved up above 102 and gains of 1 to 2 points or so were general in that department until well into the second hour when prices in the entire market began to ease off from the top. There were numerous cross currents which kept price movements more or less uncertain to the closing. The munition and equip-ment issues were neglected and nar-row save in one or two isolated cases. The steel shares ruled fractionally above Friday and the copers wer quite strong at times onds were likewise more active and firm. The commodities markets and were firm.

London was quiet with little change. There was further ease in money rates over there and the consols continued to decline gradually. reign exchange on this side was

Paying Back Dividends A dividend of 5 per cent to apply With Stocks and Bonds Well on accumulations on the preferred

Represented — Graphophone stock, in addition to the regular quarterly preferred dividend of 1% per cent, has just been declared by directors of Corn Products Refining Both dividends are payable on April 16 to stock of record April The company began paying off accumulated dividends three months ago, with a 5 per cent distribution.

Wilson & Co.'s Big Earnings. Recent strength in the stocks of reports of January earnings, which are said to have been in excess of \$825,000. This is equal to approximately the entire year's dividends on the \$12,000,000 preferred stock, leaving eleven months' earnings for the \$20,000,000 common.

A. G. & W. I. Reports Gains. An increase of \$418,843 in net earnings of the Atlantic Gulf and West Indies Steamship Lines in January, 1917, over the same period last year is reported. These earnings are exclusive of the earnings of the Inter-national Steamship Corporation, the fexican Navigation Company, and the Atlantic Gulf and West Indies Com-These lines are not in the conolidation and make separate reports.

Steel Average Still Rising Average prices of eight leading steel products quoted in the current issue of The Iron Age, gained \$1.11 during the week, the present average being \$84.68, against \$83.57 last week. Bessemer pig iron gained \$1 a ton, being now quoted at \$37.95. Beams advan ed from \$3.40 to \$3.75 per 100

Copper's Strong Position

According to the National Conduit and Cable Company, the copper industry in this country is on the best footing ever known in its history, and yet the absorption of the metal has been on such a huge scale that nearby product is difficult to obtain in large quantities. More copper was produced in 1917 than in any preceding year, and a still greater tonnage is expected in the current year. The unprecedented demand year. The unprecedented demand for copper during the last two years has led some leading producers to construct additions to smelters and refineries. These enlargements will add enormously to producing capa-city, thereby practically insuring an output fully adequate for a large inoutput fully adequate for a large in-crease over last year's consumptive requirements. The new extensions and equipment have cost millions of dollars, and are satisfactory features of the situation of recent months. The tonnage of copper which will therefore be available for consumers this year will be greatly in excess of that in 1916.

Investors Buying Western Union. The recent action of the directors of the Western Union Telegraph Company in increasing the dividend on the stock from a 5 to a 6 per cent annual basis has attracted some quiet absorption of the issue for the account of investment interests. company has been doing the best business in its history, and it is un-derstood that the forthcoming report of the operations in the last year will make a most favorable exhibit in earnings and surplus. The cable operations are heavy because of the European war, but even with the end of hostilities interests identified with the concern see no slack ening in undersea transactions, as they believe the transmission of they peace news will be just as large as that of war news, also that through improvements in handling its service the company will be able to save on costs and increase its efficiency.

French Loan Promises Success. Indications all favor the success of the new \$100,000,000 French 51/2 per cent two-year loan, the public offer-ing of which is being made at 99 and interest to yield something over 6 per cent. These notes have been traded in on the Curb since Wednes-day on a when issued basis. About 100 of the notes have changed hands in the interval, the opening sale be ing at 98%, with subsequent sales at 99 and 99%. The proposal that the Government, in the event of actual war with Germany, should grant the allies \$1,000,000,000 has acted as a distinct stimulus to the subscriptions to the new notes.

Mayo, agreeing to turn over to the uni versity regents at once a \$1,500,000 now in the hands of Mayo Founda-Rye-Firmer. No. 2 western, ex-

ROBBING-HUBBY'S POCKET IS UPHELD

Wife Justified If Spouse Holds Out on Pay Day, Magistrate Rules.

NEW YORK, March 24.-Probably the most important thing that happened in the court of domestic rela-Dora Kell against her lawful husband, Samuel Kell, of 417 West Thirty-fifth street, that a wife whose husband holds out on her on pay day Wilson & Co. may be explained by has a perfect right to get up in the middle of the night and go through the pockets of his pants-not trousers, because Samuel was asked which they were, and he said they were pants, and, what's more, so long as the tangible property of the industry he made \$15 a week driving a furniture van he guessed he'd keep on calling them pants. Furthermore, asserted Samuel, they were his own pants and private property, and he

> Samuel actually objected to her pleas-ant custom of rising about 3 a.m. and exploring his pockets, and she stated positively that she wouldn't live any longer with a man who got peeved about a little thing like that. For nine years they had been mar-ried, she and Samuel, and in all that time, she said, he has given her but \$4 or \$5 a week to run the house and care for their two children, while he always had plenty of money to spend with the boys down at the corner. So she began picking his pockets while he slept, and last Friday night she made a rich haul, getting \$17 which she didn't know Samuel had and which Samuel didn't intend she should ever know anything about.

The next morning, she said, Samuel made loud and indignant protest, and that night came the last straw. Sam-

her to the movies twice last year. "You'll have to do better than that," said Magistrate Cornell. "If a wife can't get the money she needs any other way she has a right to pick her husband's pockets. Now you pay her \$7.50 a week, and I'll adjourn the case for a month. Meanwhile you buy her some candy once in a while and take her to a show."
"I'll go back if she'll quit picking

my pockets," said Samuel. want to have to keep my pants on or a whole month."

CHAPLIN SALARY REAL COIN DIES AS MARTYR.

New York Legislators Find Charlie Gets \$750,000.

ALBANY, N. Y., March 24.-Charlie Chaplin's salary is really \$750,000 a year and perhaps by now a round mil lion, according to the Wheeler committee.

The evidence before the committee showed that even such salaries are not an unwise investment. The com-mittee heard evidence that Douglas Fairbanks receives as much lin's present contract and that there everal other stars making more

than \$500,000 a year.

The European war has played havon tions recently was the decision of Magistrate Cornell in the case of Mrs.

An unexpected development of the report, however, was the strong recommendation for censorship which, the committee says, is backed by the best people in the picture business.
Sex, vice and vampire films, the committee finds, are produced as a speciality by one large says. lalty by one large and two small com

s outside of the State, except the theaters, which are the least profit-able end of the business, the smaller ones being barely able to make expenses since the cost of films has in-

NEW YORK, March 24 .- Marmaduke M. Mizzle, a caraway seed merchant of Mincing lane, London, who arrived in New York recently on his way to Chicago, said that one of the difficult problems Premier Lloyd George had to solve was to persuade the British workingman to learn to go without that night came the last straw. Samuel not only sewed up his pockets, but he kept his pants on and took the breweries is to be reduced 50 per them to bed with him. So she had him summoned to court.

"And that isn't all either, judge," said Mrs. Kell. "He never takes me anywhere or gives me anything."

"I do too," cried Samuel. "I took her to the movies twice last var."

"Under the present restrictions,"

"Under the present restrictions,"
Mr. Minnle said, "the public houses
are open from 12:30 to 2:30 p. m. and
from 6:30 to 8:30 p. m. The proprietors are not allowed to sell a bottle of spirits, beer, or wine, to be taken away from the premises after 7 p. m., and from that hour on Friday until 12:30 o'clock on Monday afternoon the places are closed. This includes clubs, hotels, or restaurants.

Entalis Great Hardships. "It entails a great hardship on the

average British workingman, because from Samuel's pockets so long as he he cannot realize the advantage of having money if it will not buy quart pots of foaming beer. Pianos will not quench a thirst. One of the most popular ballads of the music halls was written about an idiot who 'always was willing to spend his last shilling on beer-glorious beer.' Another classic refrain was entitled 'Blowing Foam Off the Top.'

"In order to get something to drink on Saturday night and Sunday workingmen conceived the happy idea of buying bottles of gin, whisky, or rum on Monday and pawning them for a small amount until Saturday street—Union Trust Company, trus-tee, to United States of America, parts original lots 1 and 2 saves et ux. to the Republic of Cubs, part out for the week end was started.

Anti-Treating Is Hard.

Stam. When he went there there was no known vaccine virus for use in tropical climates. This he perfected, and with its use and the establishment of isolation camps, he rid Siam of smallpox. He then began burning entire villages where he found cholera existed. In that way he effectively checked the plague.

vely checked the plague. While deep in the jungle Dr. Braddock was stricken with fever, and for eight days was borne on the shoulders of natives until he reached the nearest port, where he was placed on a ship for Hongkong. After hi recovery he came back to America.

SHEPARD FAMILY BALANCES

Second "Little Sister" Plays With Finley J. Jr., in Home.

NEW YORK, March 24.-Finley J. Shepard, jr., has a second "little sister." Although her identity remains a mystery to all except the members. of the Shepard household and those who were concerned in her going there, she has been romping at will about the residence of the one-time Miss Helen Gould and her husband for sev-eral weeks now, and provides the "balance" for the kindergarten that

has been built up about the legally adopted son of Mr. and Mrs. Shepard. Finley J. Shepard, jr., was about five years old when Mr. and Mrs. Shepard signed the papers that made him their legal heir in June, 1915. A second boy was taken into the Sheppard home, 579 Fifth avenue. He was about the same age as Finley J. Shepard, jr., but was not legally adopted. Still later it became apparent that a

"little sister" was necessary to the proper development of Finley J. Shep-ard, jr. She was obtained, although nothing of her identity has become known. She was not legally ad Several weeks ago the second "little sister" was obtained by Mrs. Shepard, making a family of four juveniles, each receiving the same care and edu cation as Finley J. Shepard, jr. is that only he has only difference is the
